ISBN- EDITED E-BOOK

Title/Theme

INTERSECTIONS OF KNOWLEDGE

Law, Society, Technology and Human Development

Multidisciplinary Perspectives on Contemporary Global Challenges

Published by

LAW COLLOQUY

ABOUT THE E-BOOK

The contemporary world is experiencing unprecedented transformations driven by technological advancement, social change, globalisation, economic restructuring, environmental challenges and evolving systems of governance.

These complex developments increasingly transcend traditional disciplinary boundaries and require dialogue across Law, Humanities, Social Sciences, Management, Technology, Education and allied disciplines.

Intersections of Knowledge aims to bring together original scholarly perspectives that examine contemporary global challenges through interdisciplinary, critical and research-based approaches.

The volume seeks to create a meaningful academic platform for researchers and practitioners to explore the intersections between law, society, technology, governance and human development.

ABOUT THE PUBLISHER

Law Colloquy is a registered organisation and emerging legal publishing platform dedicated to advancing scholarly research, interdisciplinary dialogue, and public legal awareness. The organisation is committed to academic integrity, neutrality, and intellectual rigour in publishing.

Law Colloquy focuses on producing peer-reviewed edited books, scholarly books with ISBNs, research compilations, and academic proceedings that engage with contemporary legal, socio-legal, governance, and policy issues at national and international levels.

EDITORIAL & SCHOLARLY REVIEW

All submitted chapters will undergo an initial editorial screening for relevance, originality, academic quality and compliance with the submission guidelines.

Suitable chapters will then undergo scholarly review appropriate to the edited-volume process.

Selection will consider:

- ✓ Originality
- ✓ Academic quality
- ✓ Relevance to the book theme
- ✓ Interdisciplinary contribution
- ✓ Research methodology
- ✓ Critical analysis

- ✓ Scholarly significance
- ✓ Clarity and presentation

Important

- Submission of an abstract does not guarantee acceptance of the full chapter.
- Acceptance of a chapter does not depend upon payment of the publication fee. Editorial selection and financial processing will be treated separately, consistent with good publication-ethics practice.

BENEFITS FOR CONTRIBUTORS

1. ISBN-Based E-Book

The completed edited e-book will carry an ISBN, subject to the applicable ISBN assignment/publication process. ISBN is a bibliographic identifier and should not be represented as an indexing or quality certification by itself.

2. Global Digital Reach

The digital format facilitates accessibility to readers and scholars beyond geographical boundaries.

3. Academic & Media Promotion

The book and selected contributor/chapter highlights may be promoted through appropriate academic, digital and media channels, subject to the publication's promotional plan.

4. Fast-Track Publication

A structured editorial schedule has been planned with the expected publication in the first week of January 2027.

Fast-track refers to an accelerated publication schedule; it does not mean that academic or ethical review requirements will be bypassed.

5. E-Certificate

Contributors of accepted and published chapters will receive an E-Certificate of Contribution.

6. Interdisciplinary Academic Platform

Opportunity to connect with scholars from diverse disciplines and contribute to cross-disciplinary academic discourse.

7. Digital Accessibility

The e-book format enables convenient access and sharing within the permitted publication/copyright terms.

The final edited volume will be published as an ISBN-based digital edited e-book, subject to completion of the editorial and publication process.

ORIGINALITY, COPYRIGHT & RESEARCH ETHICS

Authors must ensure that:

- The submitted chapter is original and unpublished.
- The chapter is not simultaneously under consideration elsewhere.
- All sources are properly acknowledged and cited.
- Any third-party copyrighted material is used with appropriate permission where required.
- The submission does not contain plagiarism, fabrication, falsification or other forms of academic misconduct.
- All listed authors have made a genuine scholarly contribution and have approved the submitted manuscript.
- Authors are responsible for obtaining necessary permissions and ensuring that their contribution does not infringe third-party rights.
- Any relevant ethical approval, consent or disclosure requirements applicable to the research remain the responsibility of the authors.

These provisions reflect established good practice for book authors and editors, including originality, permissions, authorship, conflicts of interest and review integrity.

IMPORTANT DISCLAIMER

ISBN does not by itself constitute a guarantee of academic quality, indexing, citation count, Scopus/Web of Science inclusion, or institutional recognition.

No claim of indexing, ranking, citation impact or academic recognition is made unless specifically stated and independently verifiable.

Publication and promotional benefits are subject to the final publication plan and applicable policies.
