

Protection of Children from Sexual Offences (POCSO) ACT

The Protection of Children Against Sexual Offences Act, widely known as POCSO, was introduced in 2012, marking a watershed moment in India's history. It is important to remember that the Act holds any witness, individual or organisation liable if they fail to report any sexual offence against children. According to the POCSO Act, the aggrieved child's mental and physical safety is of paramount importance. The POCSO training workshop is designed to create awareness about the POCSO Act among various organisations dealing with children.
